

Hardware/Software Requirements for eWiSACWIS Anywhere

Important Note: The eWiSACWIS Tablet application requires the County to purchase and install WebSphere Application Server Express. To purchase this software from the State Procurement contract, please contact Steve McDowell for further details. Pricing from this contract is approximately \$400.

In order to properly install and implement eWiSACWIS Anywhere in your county, you will need to satisfy the following Hardware/Software requirements.

Please note that you can either use a laptop PC or a tablet PC to install and use eWiSACWIS Anywhere.

If you would like to get started with the initial installation and setup of the application in your county, or if you would like to schedule an onsite demo, please contact

Steve McDowell

Hardware

1.3 GHz Pentium III
512 MB RAM
40 GB Hard drive

Note for Hardware: Really you need the minimums for Websphere Application Server Express, which any new PC (Tablet or laptop) should meet: Pentium III 500 MHz, 512 MB of RAM, and 1.2 GB hard drive space. The bigger specifications you get, then the better performance, especially RAM and processor speed (in the GHz is preferable).

Software

WebSphere Application Server Express
Word, Excel (Microsoft Office Suite)
Internet Explorer 5.5 or above
Windows XP Tablet Operating System

Note for Software: Windows XP Tablet and IE 6 is standard for Tablet machines
